SUBJECT: PORT'S COMMENTS ON CHEMPRO DRAFT RFI WORKPLAN.

Dave

The attached map shows the flowpaths taken from the ground water contour map submitted as part of my review of the Draft work plan. The existing wells are indicated by Os. The Xs are for the proposed new borings. This map and the indicated flowpaths will aid us when we discuss the Port's comments about the locations of ground water monitoring wells for the upper aquifer.

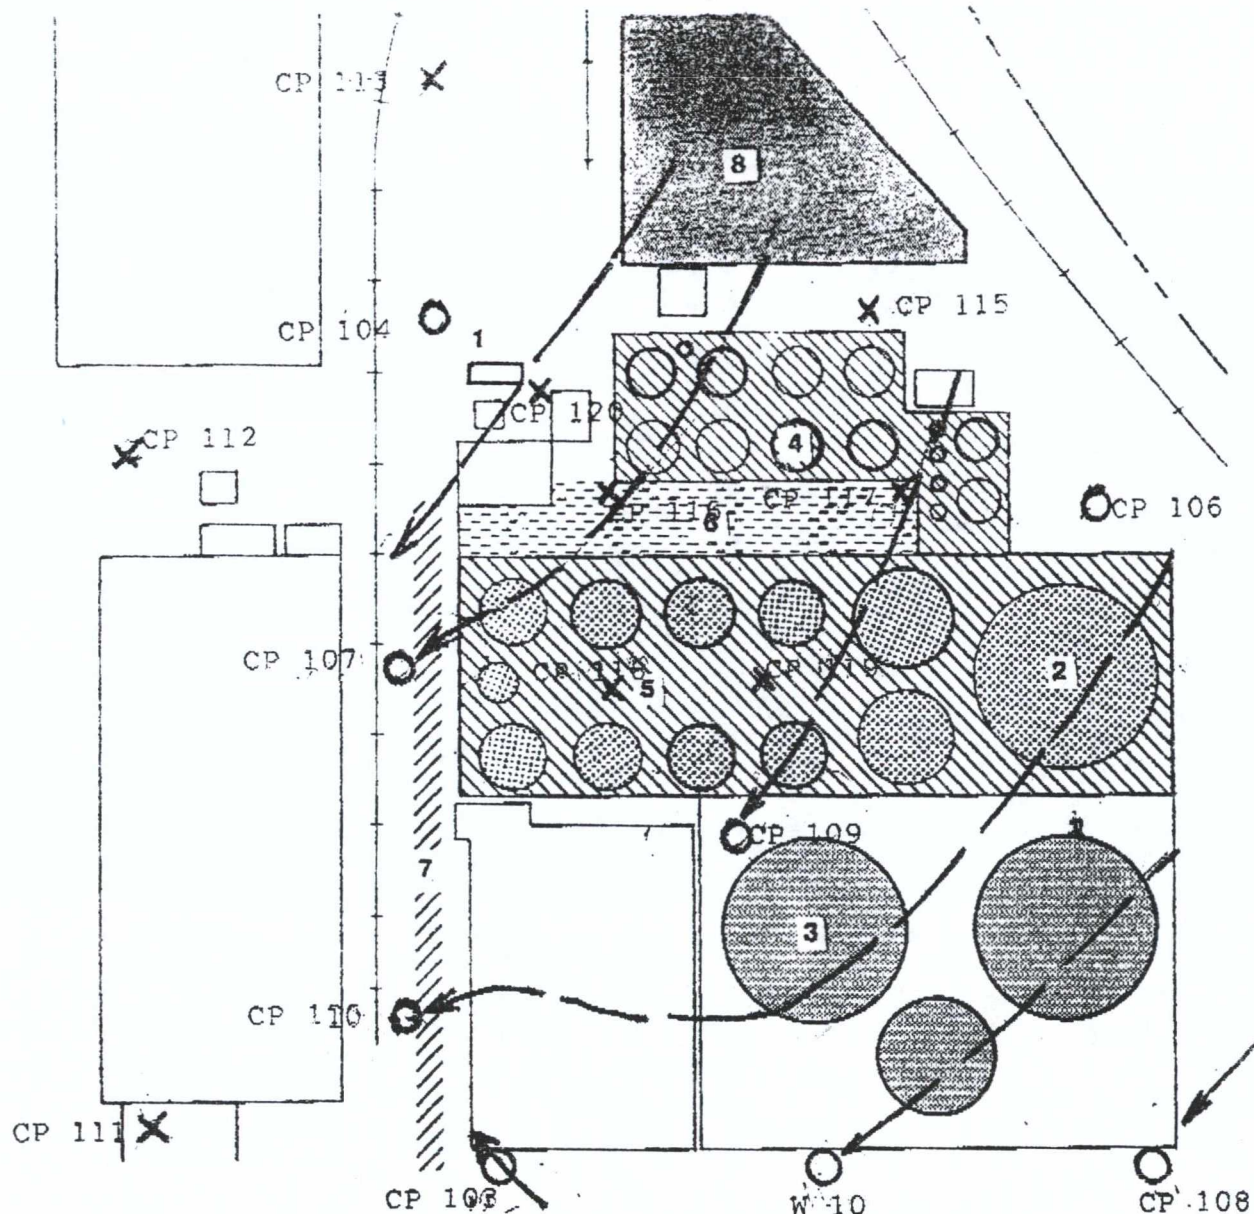

Call me as soon as it is convenient for you.

Bob
